

Single Premium Deferred
Fixed Indexed Annuities

INTEREST CREDITING OPTIONS

Issued by Americo Financial Life and Annuity
Insurance Company, Kansas City, MO

OptiMark is the
“all-weather” fixed
indexed annuity
designed to support
your retirement
income goals,
no matter the
economic forecast.

Choice of Interest Crediting Options

OptiMark fixed indexed annuities from Americo Financial Life and Annuity Insurance Company (Americo) allow you to allocate premium to one or more interest crediting options. Your choices include index options that credit interest based on the performance of a specific market index, and a declared interest option that credits a guaranteed fixed interest rate.

Your insurance professional can help you determine which options best meet your long-term and short-term goals.

Declared Interest Option

This option credits interest at a rate that is declared and guaranteed for 12 months from the date your premium is received. The declared interest rate can change for subsequent renewals or transfers but will never be less than the minimum interest rate shown on your contract's data page. A new 12-month guarantee period is established for each premium payment or transfer allocated to this option. This option may be well worth considering if you want a guaranteed crediting rate or if you anticipate taking periodic withdrawals, since interest is credited daily.

Indexed Interest Options

With the index options, your credited interest is linked to percentage changes in a specific market index during the specified index period. Available index periods are one or two years. You benefit from tax-deferred earnings and index-linked gains without eroding your principal. Interest credited is locked in at the end of each index period and will never be less than 0%. OptiMark indexed options cover a broad range of indices, including:

S&P 500® (without dividends) (SPX)—The S&P 500 is widely regarded as the best single gauge of large-cap U.S. equities. The index includes 500 leading companies and covers approximately 80% of available market capitalization. For more information, see www.spglobal.com/spdji/en/indices/equity/sp-500/#overview.

S&P 500 IQ Index (SPFEVCID)—The S&P 500 IQ Index (also known as the S&P 500 IQ 0.5% Decrement Index*) aims to provide exposure to the S&P 500 while applying an intraday volatility control mechanism. Unlike a traditional daily risk

control index that rebalances on a two- to three-day lag using end-of-day volatility observations, the S&P 500 IQ Index measures intraday volatility over a single five-minute window during the day for same-day rebalancing, helping the index be more agile in responding to market movements. The use of intraday rebalancing also aims to provide more precise volatility control, as the index seeks to maintain a target volatility of 15%. For more information, see <http://www.spglobal.com/spdji/sp-500-iq-d>.

SG Lead Asset Select Exposure Rotation Index (SG Laser Index) (SGIXUSB)—This index, developed by European financial services leader Société Générale, covers exposure to U.S. equities, U.S. government debt, and commodities within the agriculture, metals, and energy sectors. The index identifies whether the market is in a growth, intermediate, or shrinking phase, and the index uses a 5% volatility control mechanism to scale exposure up or down, according to the observed volatility. To learn more, visit <https://sg-lead-asset-select-exposure-rotation-index.com/>.

SG Columbia Adaptive Risk Allocation Index (SGIXCARA)—This Index is a collaboration between Société Générale, one of the largest European financial services groups, and Columbia Threadneedle Investments, a leading global asset manager. The Index seeks consistent returns by simultaneously employing three basic principles: (1) globally diverse investments, (2) a 5% volatility control mechanism, and (3) a smart allocation model that systematically adjusts risk according to Columbia Threadneedle Investments' view on current market conditions. For index values and to learn more, visit www.sg-columbia-index.com.

* Decrement indices are used to provide more stabilized index pricing. In exchange for this benefit, published index values are net of a fixed fee, which is 0.5% on the S&P 500 IQ 0.5% Decrement Index.

AVAILABLE INDEX STRATEGIES

With a diverse range of available index options, you can strategically choose how your money can grow! The following choices are available.

INDEX STRATEGY	ADVANTAGE
One-Year S&P 500 Point-to-Point With Cap	Capitalizes on year-over-year increases in the S&P 500, a benchmark index in the U.S. market.
One-Year S&P 500 Point-to-Point Inversion With Cap	Credits interest when the market declines, making it a great choice if you anticipate a bear market.
Two-Year S&P 500 Point-to-Point With Participation Rate	Offers strong crediting rates that are locked in for a longer period and therefore provides greater earnings opportunity than the one-year S&P 500 index option.
One-Year S&P 500 IQ Index Point-to-Point With Cap	Specifically designed for insurance products, these index options are structured to achieve higher equity exposure through the use of innovative intraday trading technology that allows the index to rapidly respond to changing market conditions.
One-Year S&P 500 IQ Index Point-to-Point With Participation Rate	
One-Year S&P 500 IQ Index Point-to-Point With Declared Rate on Gain	This index option credits a declared interest rate determined by the carrier each renewal period when the index value at the end of the year is above the starting index value—even slightly. If the Index value is at or below the starting index value, no interest is credited for that year providing more predictable returns.
One- or Two-Year SG Laser Index Point-to-Point With Participation Rate	These options, based on an index that uses a lead asset selection methodology to help deliver positive returns, offer strong participation rates.
One- or Two-Year SG Columbia Adaptive Risk Allocation Index Point- to-Point With Participation Rate	Linked to a Société Générale index that combines a market-driven allocation model with a built-in volatility control providing more stable results and enhanced rate potential, these options may offer great alternatives to index options based on traditional indices.

INDEXING METHOD

Interest credited depends on the indexing method used. Available indexing methods are point-to-point with cap, participation rate, or declared rate on gain.

POINT-TO-POINT WITH CAP OR PARTICIPATION RATE—A one- or two-year point-to-point index option compares the value of the index on the last day of the index period to the value on the first day. Interest credited is determined by applying a cap or participation rate to any index increases—or in the case of the inversion index option, to any index decreases.

POINT-TO-POINT WITH DECLARED RATE ON GAIN—This indexing method compares the index value on the first and last day of the index period. When the index value at the end of the year is above the starting index value—even slightly—a predetermined interest rate is credited. If the index value is at or below the starting index value, no interest is credited for that year.

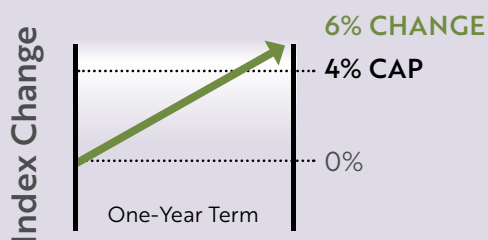

How Interest Is Calculated

CAP

A cap is a maximum rate of interest that can be credited to the annuity. Caps can change for each index period but are guaranteed never to be lower than 1%. This hypothetical example shows how interest is credited to a strategy with a 4% cap.

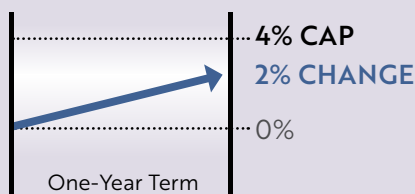

Strong Market

When index increases are greater than the cap, the cap is credited.

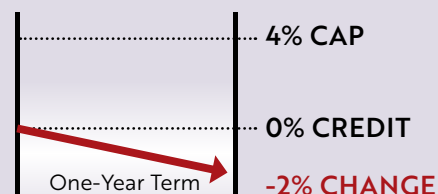

Steady Market

When index increases are less than the cap, interest credited is equal to the index change percentage.

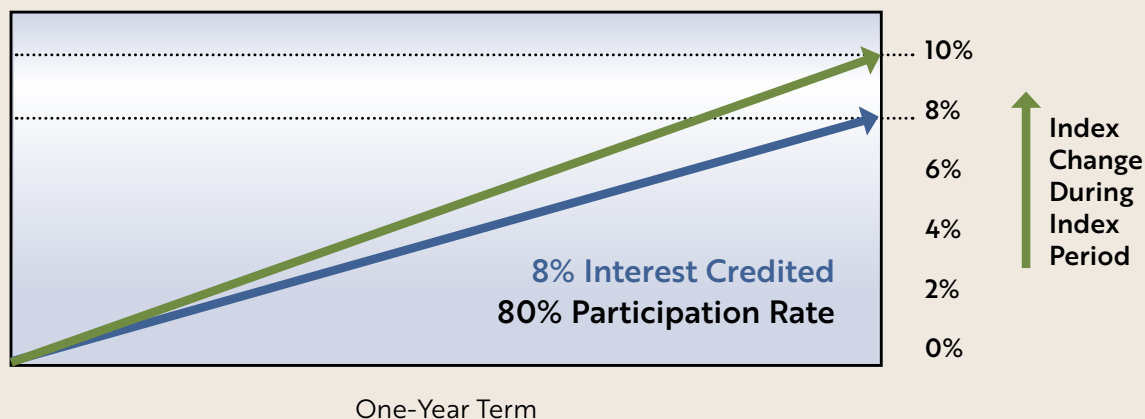

Down Market

When the index declines, 0% interest is credited.

PARTICIPATION RATE

On participation rate options, interest credited is equal to the percentage of index change multiplied by the participation rate. Participation rates can change for each index period but are guaranteed never to be less than 5% for all index options. As this hypothetical example shows, if the market increases 10% over the index period, and the participation rate is 80%, interest credited would be 8% (10% index increase x 80% participation rate = 8% interest credited).

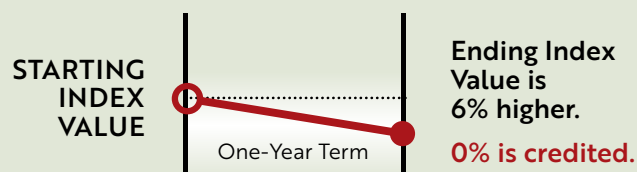

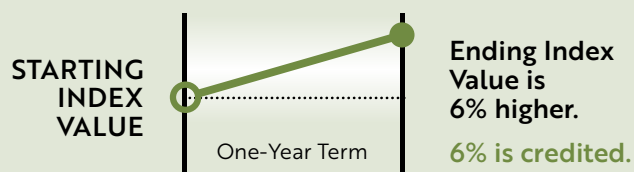

HYPOTHETICAL ILLUSTRATIONS

To understand how varying markets might affect your values, ask your insurance professional for a hypothetical illustration showing how particular index options would have performed in up and down markets and for the last 10 years. Illustrations may not be available on all strategies in some states.

DECLARED RATE ON GAIN

The declared rate on gain is an interest rate that is declared at the beginning of each one-year term period. If the index value on the index option's anniversary date is greater than the starting index value—even slightly—the entire declared rate on gain is credited. When the index value on the index option date is equal to or less than the starting index value, no interest is credited. The declared rate on gain can change for each index period but is guaranteed never to be less than 0.50%.

As this hypothetical example shows, if the market increases over the index period, and the declared rate on gain is 6%, interest credited would be 6%. If the market decreases (or stays the same), no interest is credited.

SG Columbia Adaptive Risk Allocation Index and SG Lead Asset Select Exposure Rotation Index

The SG Columbia Adaptive Risk Allocation Index and the SG Lead Asset Select Exposure Rotation Index (each, an **"SG Index"**) are the exclusive property of SG Americas Securities, LLC (SG Americas Securities, LLC, together with its affiliates, **"SG"**). SG has contracted with Solactive AG (**"Solactive"**) to maintain and calculate the SG Columbia Adaptive Risk Allocation Index and has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (**"S&P"**) to maintain and calculate the SG Lead Asset Select Exposure Rotation Index. "SG Americas Securities, LLC", "SGAS", "Société Générale", "SG", "Société Générale Indices", "SGI", "SG Columbia Adaptive Risk Allocation Index", and "SG Lead Asset Select Exposure Rotation Index" (collectively, the **"SG Marks"**) are trademarks or service marks of SG. SG has also licensed certain marks from Columbia Management Investment Advisers, LLC or its affiliates (collectively, **"Columbia Management"**) for use by SG with the SG Columbia Adaptive Risk Allocation Index. SG has licensed use of the SG Marks to Amerigo Financial Life and Annuity Insurance Company (**"Amerigo"**), and for the SG Columbia Adaptive Risk Allocation Index has sub-licensed the use of certain Columbia Management-licensed marks (the **"Columbia Marks"**), for use in a fixed indexed annuity offered by Amerigo (the **"Fixed Indexed Annuity"**). SG's sole contractual relationship with Amerigo is to license each SG Index and the SG Marks and, in the case of the SG Columbia Adaptive Risk Allocation Index, sub-license the Columbia Marks to Amerigo. None of SG, Solactive, Columbia Management or other third party licensor (collectively, the **"Index Parties"**) to SG is acting, or has been authorized to act, as an agent of Amerigo or has in any way sponsored, promoted, solicited, negotiated, endorsed, offered, sold, issued, supported, structured or priced any Fixed Indexed Annuity or provided investment advice to Amerigo. Columbia Threadneedle Investments is the global brand name of the Columbia and Threadneedle group of companies.

No Index Party has passed on the legality or suitability of, or the accuracy or adequacy of the descriptions and disclosures relating to, the Fixed Indexed Annuity, including those disclosures with respect to an SG Index. The Index Parties make no representation whatsoever, whether express or implied, as to the advisability of purchasing, selling or holding any product linked to an SG Index, including the Fixed Indexed Annuity, or the ability of an SG Index to meet its stated objectives, including meeting its target volatility. The Index Parties have no obligation to, and will not, take the needs of Amerigo or any annuitant into consideration in determining, composing or calculating an SG Index. The selection of an SG Index as a crediting option under a Fixed Indexed Annuity does not obligate Amerigo or SG to invest annuity payments in the components of such SG Index.

THE INDEX PARTIES MAKE NO REPRESENTATION OR WARRANTY WHATSOEVER, WHETHER EXPRESS OR IMPLIED, AND HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES (INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE

OR USE), WITH RESPECT TO ANY SG INDEX OR ANY DATA INCLUDED THEREIN OR RELATING THERETO, AND IN PARTICULAR DISCLAIM ANY GUARANTEE OR WARRANTY EITHER AS TO THE QUALITY, ACCURACY, TIMELINESS AND/OR COMPLETENESS OF ANY SG INDEX OR ANY DATA INCLUDED THEREIN, THE RESULTS OBTAINED FROM THE USE OF ANY SG INDEX AND/OR THE CALCULATION OR COMPOSITION OF ANY SG INDEX, OR CALCULATIONS MADE WITH RESPECT TO ANY FIXED INDEXED ANNUITY AT ANY PARTICULAR TIME ON ANY PARTICULAR DATE OR OTHERWISE. THE INDEX PARTIES SHALL NOT BE LIABLE (WHETHER IN NEGLIGENCE OR OTHERWISE) TO ANY PERSON FOR ANY ERROR OR OMISSION IN ANY SG INDEX OR IN THE CALCULATION OF ANY SG INDEX, AND THE INDEX PARTIES ARE UNDER NO OBLIGATION TO ADVISE ANY PERSON OF ANY ERROR THEREIN, OR FOR ANY INTERRUPTION IN THE CALCULATION OF ANY SG INDEX. NO INDEX PARTY SHALL HAVE ANY LIABILITY TO ANY PARTY FOR ANY ACT OR FAILURE TO ACT BY THE INDEX PARTIES IN CONNECTION WITH THE DETERMINATION, ADJUSTMENT OR MAINTENANCE OF ANY SG INDEX. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL AN INDEX PARTY HAVE ANY LIABILITY FOR ANY DIRECT DAMAGES, LOST PROFITS OR SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No Index Party is a fiduciary or agent of any purchaser, seller or holder of a Fixed Indexed Annuity. None of SG, Solactive, Columbia Management, or any third party licensor shall have any liability with respect to the Fixed Indexed Annuity in which an interest crediting option is based on an SG Index, nor for any loss relating to the Fixed Indexed Annuity, whether arising directly or indirectly from the use of an SG Index, its methodology, any SG Mark, Columbia Mark or otherwise. Obligations to make payments under the Fixed Indexed Annuities are solely the obligation of Amerigo.

In calculating the performance of an SG Index, SG deducts a maintenance fee of 0.50% per annum on the level of each SG Index, and fixed transaction and replication costs, each calculated and deducted on a daily basis. The transaction and replication costs cover, among other things, rebalancing and replication costs. The total amount of transaction and replication costs is not predictable and will depend on a number of factors, including the leverage of the SG Index, which on the SG Columbia Adaptive Risk Allocation Index may be as high as 150% and on the SG Lead Asset Select Exposure Rotation Index may be as high as 200%, the performance of the indexes underlying an SG Index, market conditions and, with respect to the SG Columbia Adaptive Risk Allocation Index, the changes in the market states as determined by Columbia Management, among other factors. These fees and costs, which are increased by each SG Index's leverage, will reduce the potential positive change in such SG Index and increase the potential negative change in such SG Index. While the volatility control applied by an SG Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls.

OptiMark Forms: Series 424, 424 DP, 2533, 2533 DP, 2543, 2543 DP, 4204, 2537, 2537 DP, 2509 PTPP (04/24), 2509 PTPC (04/24), 2509 PTP DROG, 2509 PTPIC, AAA424, AAA424 DP, AAA2533, AAA2533 DP, AAA2543, AAA2543 DP, AAA4204, AAA2537, AAA2537 DP, AAA2509 PTPP (04/24), AAA2509 PTPC (04/24), AAA2509 PTP DROG, AAA2509 PTPIC; ICC25 424, ICC25 424 DP, ICC24 2533, ICC24 2533 DP, ICC25 2543, ICC25 2543 DP, ICC19 4204, ICC24 2537, ICC24 2537 DP, ICC24 2509 PTPP, ICC24 2509 PTPC, ICC25 2509 PTP DROG, ICC25 2509 PTPIC.

Products are single premium deferred fixed indexed annuities underwritten by **Americo Financial Life and Annuity Insurance Company (Amerigo)**, Kansas City, MO, and may vary in accordance with state laws. Products are designed and exclusively marketed by Legacy Marketing Group®, an independent, authorized agency of Amerigo. Certain restrictions and variations apply.
