

FlexMark SELECT LT

Single Premium Deferred Index Annuity

Product-Specific Features

Surrender Charges

Your FlexMark Select LT annuity is designed to help provide you with long-term, tax-deferred growth along with protection of your principal, upside potential, income for life, and other benefits. In exchange for this combination of product features, a surrender charge may apply in your policy's first nine years to withdrawals and surrenders that are greater than the penalty-free amount.

The surrender charge is applied by policy year as a percentage of the accumulation value withdrawn or surrendered:

Surrender Charge Schedule										
Policy Year	1	2	3	4	5	6	7	8	9	10+
Surrender Charge	8%	7.75%	6.75%	5.75%	4.70%	3.65%	2.60%	1.50%	0.60%	0%

A market value adjustment also applies in Indiana and Missouri. Ask your insurance professional for details.

To learn about ways you can access your accumulation value without incurring surrender charges, refer to the FlexMark Select brochure.

FlexMark Select Index Annuities are single premium deferred annuities that offer a fixed interest option and index interest options. Annuities with

an index option may be referred to as equity index annuities. The index options are not securities; you are not investing in stocks or in the indexes themselves. Therefore credited interest does not include dividends paid by companies included in the relevant index. The credited interest is linked, in part, to gains in any combination of indexes. Keep in mind, you are not actually participating in the market or investing in any stock or bond. Past performance is not an indication of future results.

Withdrawals may be taxable and, if taken prior to age 59½, a 10% penalty tax may also apply. The information presented here is not intended as tax or other legal advice. For application of this information to your specific situation, you should consult an attorney.
