KEY TERMS

Cap—A cap is a maximum rate of interest that can be credited during a crediting period for a particular index allocation. Caps can change for each new crediting period.

Crediting Period—The crediting period begins when funds are allocated and ends after a designated length of time. SpireMark offers one- and two-year crediting periods.

Participation Rate—A participation rate is a percentage of the total index growth over a crediting period for a particular index allocation, used to calculate the index interest we credit to your contract. Participation rates can change for each crediting period.

Point-to-Point—At the end of each crediting period, the ending index value is compared to the beginning index value. Interest credited is determined by applying a cap or participation rate to any percentage increase. If the percentage change is zero or negative, 0% interest is earned for that crediting period. Credited interest will never be less than \$0.

ALLOCATION BLUEPRINTS

As an alternative to selecting among the individual allocations, you can choose one of three preset Allocation Blueprints. Each Allocation Blueprint offers a diversified allocation using set percentage allocations to a variety of one-year allocation options offered for your contract. Allocation Blueprints are available only at contract issue. For more information about the Allocation Blueprints, please review the Product Disclosure Statement.

Product series ICC23-FIA-TS is an Individual Modified Single Premium Deferred Fixed Indexed Annuity. Product, features, and riders are not available in all states, and may vary by state. Certain restrictions and variations apply. Consult contract and riders for all limitations and exclusions. Withdrawals may be subject to income tax, and a 10% federal income tax penalty may apply to withdrawals taken before age 59½. Products are designed and exclusively marketed by Legacy Marketing Group®, an independent agency. SpireMark and MultiRider Max are service marks of Legacy Marketing Group.

Fixed index annuities are long-term insurance products. An early withdrawal or surrender can result in surrender charges and a market value adjustment that could result in a loss of principal and credited interest. These products do not involve a direct investment in the stock market or any individual index.

Taxes are deferred until withdrawals are taken, and tax deferral is available only to individuals. Under current tax law, tax deferral is a basic feature of qualified plans. Placing qualified funds into an annuity does not provide any additional tax benefit. You should consider an annuity's other features and benefits before purchasing in an IRA or other qualified plan.

Guarantees are based on the claims-paying ability of the issuing insurance company. Neither TruSpire nor its agents are authorized to give legal or tax advice. Consult your attorney or tax advisor regarding your specific situation.

Not a deposit. Not insured by FDIC, NCUA, NCUSIF or any federal government agency. May go down in value. Not guaranteed by any bank or credit union.

This document is not a legal contract and provides only a brief summary of product features. For the exact terms and conditions, please refer to the contract.

* Also known as the S&P 500 IQ 0.5% Decrement Index.

** The annual fixed rate also applies to the Interim Allocation for additional premium payments made during the first contract year.
